G.O. No. 1468

5/

Dated 4 - 5 - 48.

[Despatch Abstract.]

Drugs - Madras Drugs Rules, 1948 -
Difficulty in giving all the details
as required by Rule 109 on labels
attached to ampoules - Papers - Recorded

No. F. 1-22/47-D.
Government of India,
Department of Health.

...

From New Delhi, the 2nd July, 1947.
Harbans Singh, Esquire,
Assistant Secretary to the Government of India,
To The Secretary to the Government of Madras,
Education and Public Health Department,
MADRAS.
Sub: Difficulty in giving all the details as
required by rule 109 on labels attached
to ampoules.

.....

Sir,

I am directed to say that the Government of India propose to address the Drugs Technical Advisory Board as in the attached draft letter regarding the labelling of ampoules under the Drugs Rules and enquire whether the Provincial Government agree to the Board being consulted in the matter on behalf of the Provincial Government. Any further action in the matter can be taken on receipt of the recommendations of the Board. The Government of India will communicate the recommendations of the Drugs Technical Advisory Board to the Provincial Government in due course.

I have the honour to be,

sir,

Your most obedient servant,

Sd.

for Assistant Secretary,

DRAFT LETTER.

To

The Secretary,
Drugs Technical Advisory Board,
C/O The Director-General, Indian Medical Service,
NEW DELHI.

Sub: Drugs Rules 1945- Rules 96 (1) and rule 109- Difficulty experienced by the trade in giving all the details on labels attached to ampoules.

...

Sir,

I am directed to say that in the Conference of Drugs Importers held on the 10th March 1947 the importers pointed out that there would be practical difficulty in labelling individual ampoules with all the details required under rule 109- of the Drugs Rules 1945. The practice in vogue with regard to sera and vaccines manufactured at the Central Research Institute Kasauli is to include all the required details in a label the end of which is pasted on the ampoule and the rest of the label wound round it. The importers however consider this practice unsatisfactory as such "pennant" labels are apt to be easily torn off. They suggest that it should be sufficient to mention only the name of the drug, dosage and name of manufacturer on the ampoule itself and if considered necessary, also the Batch no. and date of expiry of potency, if any, while all other details should be on the outer container.

I am to request that this matter may be placed before the Drgus Technical Advisory Board at their next meeting on behalf of the Government of India as well as all the Provincial Governments and their recommendations together with any draft amendments to the Central and Provincial Drugs Rules which may be suggested by them may be communicated to this Department.
